

## Rules for Steel League

1. Social distancing of at least six feet will be maintained by all present at all times.
2. Scoring will be done on paper. One person will do all the scoring and only that person will handle the clipboard. When it is their turn to shoot someone else will sanitize their hands, take the board and score for them. Return the board to them and again sanitize their hands. The same procedure will be used with the timer.
3. Keep your equipment separated, do not handle each other's equipment. This includes brass. Either pick up your own brass or we can use a "grabber" to handle it.
4. In the event that one participant must physically assist another, masks must be worn by both parties and hands must be sanitized immediately following.
5. Hearing impaired shooters may be started with a stick on the shooter's shoulder so the RO can maintain the six-foot distance.
6. Since the RO will have to be six feet from the shooter the "show clear" procedure will have to be modified because the RO will not be able to see into the chamber.
  - A. For those who bring their gun to the line in a bag or case no changes need to be made as the RO can see the empty magazine well and ECI from six feet.
  - B. For those who carry their gun holstered, holster your guns at the safety table as you normally would. The only change will be at the "show clear" command, when you receive the command turn the magazine well toward the RO so he or she can see that there is no mag. in the gun. Then open the action and insert a ECI into the chamber making sure the RO can see it. Remove the ECI and close the action. Wait for the command "hammer down". Drop the hammer and on command "holster".
7. Each squad will be limited to no more than 9 shooters including the RO. This is to minimize the possibility of personal contact. The less shooters on each squad the better.
8. Each shooter will have to sign a supplemental Hold Harmless form dealing specifically with Covid-19 exempting the club from any liability connected to the corona virus.

IF YOU HAVE ANY SIGN OF ILLNESS STAY HOME
